

Rocket Internet GmbH invests in the development of innovative companies in the internet industry. Our passionate, dynamic, highly motivated team works to establish promising business models in the market.

Founded in 2007, Rocket Internet GmbH has its headquarters in Berlin. Rocket supports internet startups in more than twenty countries around the world.

As a fast growing company we are opening a new tech (development) center in Portugal (Porto) and we are looking for developers with the following profile:

- Experience programming in PHP5 (Object Oriented Programming)
- Experience with MySQL
- Experience with XML, HTML & XHTML
- Knowledge of Internet protocols
- Fluent in English (mandatory)
- Availability for short term international traveling

We Offer:

- The chance to work in a fast-moving, challenging but informal work environment with major international projects
- Semi-flexible work schedule
- Competitive salary and eligibility for bonuses
- Opportunity for career advancement
