Helping you win and grow

CGI is a world-class leader in information technology and business process services, with the expertise and capabilities to serve the needs of businesses and governments of all sizes. Backed by a rich heritage, global scale and strong financial position, CGI has a solid track record of on-time, on-budget delivery and high-value repeat performance. Rooted in quality processes, our goal is to fully satisfy client objectives, serving as an accountable, flexible and objective partner.

Services and capabilities

From providing consulting and systems integration services to managing IT and business functions on behalf of our clients, CGI provides an all-encompassing offering that includes the planning, design, implementation and management of highly effective business and IT environments. Our global delivery capabilities include onsite, homeshore, nearshore and offshore options, giving our clients the flexibility to choose the model that best meets their needs.

Business process services

We manage back-office business processes and transactions on behalf of our clients, allowing them to concentrate on their core business, strengthen their competitiveness and improve their bottom line. We provide specialized administrative services tailored for specific industries and enterprise services for all industries' core functions.

Systems integration and consulting

CGI helps plan, design and implement technology solutions that solve clients' business problems. We act as a trusted advisor, providing a full range of IT and management consulting services, including strategic planning, business process engineering, systems architecture and integration services.

Application management

We provide day-to-day maintenance and improvement for clients' business applications, helping reduce costs and ensure faster delivery of new initiatives. Services include application enhancements, maintenance, testing and support.

Technology management

CGI has full IT infrastructure management capabilities, allowing clients to delegate entire or partial responsibility for their IT functions. Our worldwide delivery capability and state-of-the-art technology infrastructure allow us to offer clients the optimal combination of onsite and offsite outsourcing service delivery.

Helping you win and grow

Our approach

CGI's end-to-end services and global delivery capabilities provide the flexibility, depth and innovation needed to solve our clients' business problems in the most cost-effective manner possible. Combined with our delivery approach, we are in the best position to help you win and grow.

Quality and delivery track record

Quality processes have always been at the forefront of CGI's operations. Our track record of on-time, on-budget delivery is rooted in the CGI Management Foundation, which encompasses our ISO-9001 certified client, member (employee) and shareholder management frameworks. Our delivery approach differentiates CGI from many competitors. We adapt to the client's way of conducting business, which is the least disruptive to them and maintains their control of strategic functions. At CGI, we listen closely to our clients to thoroughly understand their needs and carefully adapt our solutions and processes accordingly.

Flexible and accountable partnerships

Leaders in many industries have made CGI their partner of choice. We have achieved this status by listening to our clients and by nurturing an internal business concept that provides the right degree of empowerment and accountability at all levels. Through our client proximity operating model, CGI ensures that clients have local contacts who live and work in their communities, fully understanding their business needs and being accountable for project success. This translates into rapid decision making, agile delivery and ability to adapt to challenging situations.

Industry depth and expertise

CGI has long and focused practices in all its core industries, providing clients with a partner that is not only expert in IT, but expert in their industries. Our knowledge and experience with each industry's business environment and practices enables us to design solutions that address industry-specific issues. This combination of business knowledge and technology expertise allows us to help our clients adapt as their industries change.

Our committed team

Led by a strong leadership team and powered by talented professionals, we foster a culture of partnership and integrity. We call our employees members because all who join our ranks take full ownership in building a world-class company. CGI members have strong industry backgrounds—many having worked in their clients' industries for years—and have expertise in both the business and technology sides of the business. Ninety percent of our professionals are active shareholders of CGI, reinforcing our commitment to client success.
